BLACK HAND LEADERS IN JAIL, IS BELIEF

One Prisoner Declared to Be Implicated in Murder of Detective Petrosino

THREATENING LETTERS HELD AS EVIDENCE

Captured Men Said to Have Made Fortunes Out of Their Crimes

CINCINNATI, O., June 9.—Operations in nearly every large city in the United States and the ramifications of the secret service in Italy will be laid bare, it is expected, when the Black Hand gang which was rounded up in Columbus and Marion, Ohio, by postoffice inspectors of Cincinnati, are brought to trial.

Inspector in Chief Holmes says the evidence gathered by his men and by the police of several cities is voluminous and there can be no doubt that the crimes of blackmail, extortion and threatened and attempted murder will be fastened upon the men.

In addition to the arrest of four Sicilians in Marion, Columbus and Dennisville, John Cusack and others were taken into custody in Marion Tuesday night. Those arrested early in the day were Sam Lima, said to be the ring-leader of the band in the United States, and Joe Rizzo in Marion. Antonio Marzini in Dennisville and Collogno Viscarri in Beloitton.

Find Headquarters

The arrests were made following letters sent to John Petrosino, a fruit dealer of Columbus, Ohio. The inspectors say they have evidence that a room in the rear of a little fruit store in Marion, conducted by the Rizzos, was the headquarters of the society. In this country and they found in a safe there letters which will throw light on many successful attempts to extort money from wealthy Italians in Ohio New York, Pennsylvania and other states.

The letters confiscated fill two large mail pouches. Some were received from points as far west as South Dakota. They show the efforts of the secret, half-breed Italian business men have been paid off tribute to the black hand to gain immunity from death or torture at the hands of the members of the society. Books showing the receipt of money and its division among members of the gang also were found. The names of many active members of the black hand, together with the names of hundreds of their victims, are in possession of the officers.

Certain of Conviction

The officers declare they now have sufficient evidence to convict.

The New York police officials who are carrying on the detective work started by Joseph Petrosino, who was killed in Sicily, have been working on the theory that there is no extensive black hand organization but that the operations have been conducted by individuals in different cities who have no connection with each other. But the work of the Cincinnati officers tends to show that the New York experts have been wrong in their theory and that not only has the black hand a national organization in the United States but that it is directly allied with a similar organization in Sicily and is working in concert with the Mafia or Cosa Nostra in Palermo as it has more recently been known in this country.

The co-operation between the government offices was authorized by Inspector F. Oldfield under the directions of Inspector A. R. Holmes in charge of the Cincinnati office.

Money Sent to Italy

The conspirators are alleged to have sent \$300 monthly to Italy.

It is said the officers have found the society is an inbound organization, membership in which is invested with blood-curdling oaths grips paces words and signs.

MARION, O., June 9.—United States Secret Service Agent F. E. Oldfield who arrested Sam Lima, a fruit merchant here yesterday as a leader of an Italian Black Hand society, has gone to Columbus, taking with him a bunch full of incriminating letters found in Lima's store. Some of the letters, all written in Italian, were decorated with skull and crossbones. Others were prepared with neatly drawn bleeding hearts pierced by daggers. More of the letters contained different designs of threatening insignia of Black Hand mystics.

Find Evidence

Of the several Italians arrested with Lima all but Samuel Rizzo and Sebastian Batiziano have been released. Both of these men were section heads. They were associates of Lima and in their trunks the secret service agents found letters of the same character as those taken from the safe in Lima's store.

With the authorities here are awaiting the arrival of United States Marshal Carriger from Cleveland, who will take Rizzo and Batiziano to Toledo, secret service operatives are searching for Italians in neighboring cities who are suspected of implication in an extortion plot that has netted the band thousands of dollars during the last few months. Some of the suspects are being sought in Beloitton, Lima's father, who is wanted, is said to be in Upper Sandusky and the police there have been asked to apprehend him.

PASTOR ACCUSED OF MURDER BY NEGLECTING WIFE

TUCUMCARI, N. M., June 9.—Murder, the result of willful neglect, is the charge brought against Rev. Jesse Fenton, pastor of the Holiness Church at San Juan, N. M., who was brought here today in charge of officers and lodged in jail. It is charged that Rev. Fenton refused to summon medical attendance for his wife when she was taken ill recently, and that he allowed her to die.

ASK \$194,000 OF CITY FOR PUBLIC PARKS

Money Is Required to Make Necessary Improvements, Declares Edoff

SUM SOUGHT WILL BE SMALLER YEARLY

When Gardens Are Completed No Great Amount Will Be Needed

The park commission recently appointed by Mayor Mott after weeks of careful deliberation, has come forward with a request that during the coming fiscal year that the sum of \$194,000 from the revenues of the city be appropriated for the improvement of the park property owned by the city. This sum will be the heaviest demanded by the commission. In subsequent years a smaller amount will suffice. This year the outlay will be heavy for the foundation of all future work will be late.

In speaking of the necessity for so large an appropriation Park Commissioner Edoff says:

"While the sum appears large at first glance, it is not. The estimate has been prepared with great care and the sum of \$194,000 represents actually what it is needed to make the start in the matter of parks. This year the foundation for all future work must be laid. There are the West Oakland Park, De Fremery, Adams Point Park, and the other properties owned by the city."

At least three of the parks are practically virgin. Noting has been done with them and if we are to make a showing at all the sum of \$104,000 will be required.

For a long time there has been a suspicion that the affairs of the Building Trades Council were fully as well known among their enemies as they were among the membership. In fact, it was known that questions which should only be known to the executive committee were also known by the Citizens' Alliance, which had been planned for accomplishment. It was known that the Building Trades Council can try the offending member and discipline him if found guilty.

So secretly has the matter been under investigation that there are members of the committee itself who are not fully conversant with all the facts in the case. In fact the first knowledge that a majority of the labor men of the city had that even a suspicion was entertained against Poole came with the publication of the fact in last Sunday's TRIBUNE.

DETECTIVES PUZZLED OVER MYSTERIOUS CASE

Injured Man Stabbed Score of Times on Face and Shoulders

SAN FRANCISCO, June 9.—What

may have been an attempt at murder which the victim is making every effort to keep quiet, was revealed this morning when Agustina Plaza, a marine fireman, was taken to the Harbor emergency hospital suffering from nearly a score of knife stabs in the face, head, neck and shoulder.

No better organized body exists than the Building Trades Council. Fundamentally it is based on the verdict of the council.

Each of the unions represented in the body elect representatives to the council. These men in turn select an executive committee whose duty it is to carry out the wishes of the body and act exactly as the words executive committee would imply. In all matters they are subservient to the will of the delegates who selected them, but their acts as individuals in the carrying out of questions of order and of policy are secret among themselves until they have reported to the governing body.

The public is not informed of the action of the body in this regard. Occasionally, however, it may be pleased upon them to apply to the Building Trades Council for permission to make their demand or to take the action they have decided upon. The matter is discussed by the trades council, which is made up of delegates from all of the unions representing all of the branches of labor affiliated with building construction. It is there that the matter decided upon, the points meeting each other, is discussed. The action of the body is then decided. HAYWARD, June 9.—Imagining himself the possessor of untold wealth Michael Glaser, a shephard living several miles from Hayward, barricaded himself in his home, and with a shotgun off the attempts of neighbors.

For two days and nights the man remained in the seclusion of his home only appearing at intervals with the axe to cut the trees which he imagined intended to deprive him of his gold, a creation of the disordered brain.

Taken Prisoner

Constable W. J. Rummage last night broke into the house, and after a struggle, disarmed the maniac. This morning he was taken to the county jail or instead of Dr. William Hagenbaugh, Glaser's physician and friend.

Glaser for many years past has been regarded as one of the most break-dan-tilters in town, with several days ago, when he suddenly seized an axe and threatening to kill all who came near him, laid it in his house.

Shouts Warning

The crazy man was continually receiving imaginary bargains, telling him of enormous fortunes left at his disposal by rich relatives. As he received the messages, Glaser would shout the news to his neighbors and warned them not to approach him, for his pain of death.

He is now sane, but in strong constitution, and the residents of the community in which he resides.

"We are cursed very often," said a prominent union man last night, "by the malignant ambitions of those we have selected to represent us on vital matters. Here is the case, however, of a man accused of having deliberately sold us out and sold out the very vital and all important interests, which each one of us extends. Now, in the history of laborism in this state, there has never been such a case before the union men have been more mortified. It is to be hoped that the Gillet investigation shall be made and that the results of the investigation will be public so that the example made may never guilty of such conduct southward a warning to others."

GEORGE E. STARR, TREASURER OF UNITED RAILROADS, IS WITNESS IN CALHOUN CASE

Prosecutor Heney Again Fails in His Attempt to Force Company to Bring Vouchers of Expenditures Into Court

SAN FRANCISCO, June 9.—The famous missing witness, George E. Starr, treasurer of the United Railroads, whom Special Prosecutor Francis J. Heney has frequently instigated was purposely remaining in New York, and holding off from the graft trials in this city, took the stand at the commencement of the Calhoun trial today. This is the first time the officials has testified in any of the cases and what the use of a summons came to him voluntarily from the east, arriving here three weeks ago.

With the addition of Mr. Starr, all of the officials and directors of the company have given evidence in the present hearing. The witness was served with a subpoena last night by Special Agent William J. Burns himself, the chief gun shot having learned only yesterday that he was within the jurisdiction of the court.

Back to Main Issue

He had been boosted up on Schindler's shoulders and peeped into one of the rooms through a transom, and remembered that it was open at an angle of 45 degrees. The witness had gone to San Martin to subpoena Mike Morgan at the latter's ranch, but had not found him there.

The witness, Walter G. Smith, clerk in Judge Deasy's police court, who produced the records of that department to show that a number of defendants were there charged with grand larceny and of alms and alms money, and the mint transactions were again made the subject of inquiry. Starr stated that he had been treasurer of the company since 1902 previous to which time he had been associated with the San Francisco & San Mateo railway company, afterward absorbed by the United Railroads.

He asserted that he had been instructed to place \$200,000 to the credit of the United Railroads Investment Company in August, 1906, by Patrick Calhoun, and had later received a receipt for the money and some vouchers from General Tilney J. Ford. He had gone East June 17, 1907, after it had been considered necessary to have some one who was familiar with the conditions in this city.

Returns to Coast

"Didn't you leave here the day after Schmitz was convicted?" asked Heney. "I couldn't say," was the answer. "I don't remember."

"When you came here this time did you go direct to your home in Ross Valley?"

"No, sir; I went to the Fairmont Hotel."

"And you register under your own name?"

"Yes, sir."

The prosecutor here concluded with the official, and Attorney Stanley Moore brought out that after the failure of the Knickerbocker Trust Company of New York a lot of reorganization had to be done in connection with the corporation.

Reason For Absence

"I object to that as a mere repetition made in a very silly way," interposed Attorney A. E. Moore. The objection was sustained, and the court ruled that the defense could not call the witness again.

50,000 Try "Swissco" With Marvelous Results

50,000 Bottles Given Away Free in Oakland During Past Few Days, Which Has Proved the Marvelous Merits of "Swissco," the New Hair and Scalp Remedy.

Grows New Hair. Removes Dandruff, Brings Back Natural Color to the Hair, and Stops All Hair and Scalp Troubles.

DANDRUFF IS EASILY CURED
By using "Swissco." Sometimes a simple treatment will do it if thoroughly applied to the scalp after cleansing it with "Swissco." Cleanser which accompanies each bottle of the remedy. All scalp diseases yield to this treatment, and it quickly restores gray or faded hair to its natural color. A trial will speedily convince you.

FALLING HAIR IS SICK HAIR
"Swissco" cures it, makes hair healthy, starts a new growth and covers bald spots. Natural color restored, dandruff cured. Infants stop colic. All those hidden under scale or dandruff that are sapping the life of the hair are destroyed and health and vigor renewed. Try a bottle today, it will delight you.

NO MORE GRAY HAIR
"Swissco" Hair and Scalp Remedy brings your hair back to its natural color, gives it vigor and makes it dye at a true hair food that destroys the cause of the trouble and assists nature to supply the pigment or coloring matter it quickly cures dandruff. Why look old before your time?

BRITTLE HAIR THAT SPLITS
is caused by the hair being too dry and harsh because of lack of oil. Brushing under such conditions does more harm than good. The application of "Swissco" splits no more. This difficulty makes the hair take on new life and vigor and return to its natural color and glossiness. Hair health is yours for the asking.

FOOD FOR HAIR
Is as necessary as for the body. Hair, lacking proper nourishment, gets dry, brittle and appears pale. Life and gloss disappear when the food elements required are lacking, and the scalp is not able to supply the same. "Swissco" invigorates and supplies what nature demands. Good hair is an index to good health.

HEALTHY HAIR IS MOIST.
IS YOURS?

If the natural oil is lacking your hair will become dry, harsh, brittle and split. "Swissco" gets at the trouble very easily—nature to put in a healthy condition becomes gray. "Swissco" feeds the hair.

Strange Romance Revealed
By Death of Famous Paris Merchant

PARIS, June 9.—The crowning surprise of the eccentric will left by H. A. Chauchard, owner of the famous Louvre store, came out yesterday. It was learned that the famous merchant, who had never married, who even at death's door ignored his own kin and whose one interest seemed to be in gathering treasures of art, had cherished for years, unknown to the world, a romantic friendship for a woman.

Madame Bousin, "an old and excellent friend, who for many years has shown the testator the most devoted care," is to receive from M. Chauchard's estate the astonishing sum of 40,000,000 francs—\$8,000,000. Possibly it is the greatest fortune ever left to a woman under such circumstances.

Commissioner and Clerk Cal Ewing of Board Testify Against W. B. Nash

SAN FRANCISCO, June 9.—After securing a trial in record-breaking time for a case of such widespread interest, the actual taking of evidence was begun in the trial of W. B. Nash, former cashier of the wrecked Market Street Bank. In Judge Dunn's court, this morning.

The defendant is charged with having made a false report to the bank commissioners and officials of that body were the principal witnesses against him today.

J. Cal Ewing, clerk of the board, and George C. Smith, identified himself as contributed technical testimony during the hearing. Attorney Louis Ferrari began the session with the opening statement of the prosecution. The defense was represented by Attorneys Frank Cook and Campbell, Metson and Drew.

Plans of Residence to Be Built for Victor H. Metcalf on Vernon Heights.

To the many fine residences which now have dimensions of 20 by 25 feet, commanding view of the picture-postcard of the surrounding territory, and "I" is satisfied that his purpose has been attained.

It is significant of the devotion of the part of Mr. Metcalf to Oakland and its people that, after having filled with honor and credit to himself, the office of congressman from this district, and more recently, the arduous position of secretary of the navy, especially when that arm of the government was making the greatest cruise ever made by vessels of war in the history of the world, in retiring to private life, he should return to the place and people who first showed their confidence in his ability and integrity by selecting him to represent them in the halls of congress.

Rooms in Redwood
The general finishing of the apartments on the upper floor will be redwood, the lower floor all white, answering the last roll call; but those who are participants in the new method will always look back and say of you: "They fought for their country; they died for their country; they gave all their possessions."

After a short history of the Relief Corps by Mrs. Allen, president, and a general history of the American Flag, by Mrs. G. Estelle, the banquet was opened.

The concluding remarks after the banquet were given by W. R. Thomas, Post Commander, who gave a brief outline of the organization of Appomattox Post and stated that the following list of officers have held office longer than my preceding: W. R. Thomas, post commander; J. M. Taylor, senior vice-commander; H. H. Woodward, adjutant; S. M. Carr, chaplain; B. D. Campbell, adjutant.

Two-Story Structure
The home will have a frontage of 48 feet and a depth of 58 feet. It will be located on a lot having the dimensions of 100 by 120 feet. There will, therefore, be ample space for the creation of flowing porches, with which to delight the owners and their friends, the beauty with which nature has already endowed the spot. The structure will be three stories in height with a high basement which latter will be designed for performance of the heavier work of the household.

The main entrance will lead into a hall of 18 by 21 feet finished in Douglas fir. On the left will be the living-room which will be finished in Philippine mahogany and have dimensions of 20 by 25 feet.

CIVIL WAR HEROES AT ANNUAL FEAST

Twenty-Fifth Anniversary of Women's Relief Corps of Appomattox Celebrated

The twenty-fifth anniversary of the Women's Relief Corps of Appomattox Post, No. 50, was celebrated last night in Lincoln Hall, 407 Thirteenth street, by an elaborate banquet, and was attended by five hundred in male and female guests of the Post and Corps.

The program for the early part of the evening consisted of various musical and vocal solos by Miss Helen Thomas, Misses Gamble, Mrs. C. W. Collins, and F. E. Parrott.

Judge E. M. Gibson then spoke as follows:

"Friends and comrades—a thought not a member of your Post, I consider that great honor has been conferred upon me, by your request for my presence here this evening in order that I may assist in the great and noble undertaking of more thoroughly developing the spirit of reverence toward those of veterans now rapidly passing away. I wish to congratulate those who have assisted in the work of advancing the Women's Relief Corps."

"Thinking of the great work these frail women have accomplished; think of the many successes that they have completed; think what would become of us if we were deprived of them, and lastly remember that it is the men and their sisters upon whom our country is endeavoring to force a yoke that will defeat their inward motives and subdue them forever, believing that this will tend to abolish lot-

ORDER PAYMENT OF \$10,000 FOR SITE

Berkeley Trustees Spring Surprise in the Incinerator Property Problem

HODGEHEAD FACTION IS
VERY MUCH WORRIED

Order Ordinance Passed to Print For \$3300 For Fire Department

BERKELEY, June 9.—The Board of Trustees last night ordered ordinances passed to print for the payment of \$10,000 balance on a site for an incinerator and \$3300 for an auxiliary department alarm.

The incinerator action came as a surprise to some of the commissioners-elect, who were present and upset the calculations of the interests opposing the purchase of the property, which consists of seven acres at the foot of Camellia street and belongs to former Postmaster George Schmidt.

About six weeks ago the board ordered a first payment of \$5000, the balance to be provided by bond issue. Auditor M. L. Hanscom refused to approve the warrant on the advice of Earl H. Webb, the boss of the new administration. Webb and Mayor-elect Hodgehead professed to see in the deal a scheme to favor George Schmidt and at the same time deplete the treasury in order to embarrass the incoming administration.

Taken Into Courts

The row was taken into the Superior Court and in the first skirmish Judge Harris sustained a demurrer by the town against the stand taken by Hanscom, but Webb continued to advise dilatory tactics. According to attorneys, last night's action of the board will nullify the proceedings in court as soon as the ordinance is adopted and the treasury will be depleted to the extent of \$15,000 from the standpoint of the new commissioners.

It is not known what action Boss Webb and Mayor-elect Hodgehead will now advise, but the auditor would refuse to approve the warrant for the payment of the entire purchase price, there would probably be a very pretty row in the courts and some interesting reminiscences among the present and incoming public officials.

Auditor Hanscom would not discuss the matter this morning and Webb is "awaiting developments." Meantime Town Attorney Staats is preparing for fight and believes he can compel the payment of the money and that the action of the outgoing trustees is legal and valid.

Perplexing Question

This incinerator, too, threatens to become as troublesome and perplexing a question to Hodgehead and the new commissioners as it has been to the present official for the past year. The North Berkeley Improvement Club, which is an ardent supporter of Webb and Hodgehead, adopted resolutions last night calling for a settlement of the controversy and the purchase of a site and erection of an incinerator without further delay. This plays into the hands of the present board of trustees and Webb seems to have been inspired by the zeal of his own supporters.

It will be necessary for the new government to call for a bond issue at once to erect the incinerator. If the deal for the purchase of the Schmidt site is approved by the courts, and this is not a prospect at all, alluring to the men who are to take hold of affairs July 1.

Still Another Move

There is a proposal that at the meeting of the board next Tuesday night the firemen and policemen discharged ten months ago because of a deficit in the general fund will be reinstated. This will put both departments on their former footing and incidentally still further "deplete the treasury" and afford another source of worry for Mayor-elect Hodgehead.

Farnum Not With Mrs. Gould, He Says

NEW YORK, June 9.—Testimony given by Dr. Martin D. Moran of Boston, concerning a consultation he had with Gustavus Farnum, the actor, at Boston, yesterday, was filed today in the suit of Mrs. Catherine Clemmons Gould for a separation from Howard Gould. It was sought to show by the witness that Farnum had invited Gould to have dinner with him in his apartment in the St. Regis in this city on that day, as charged in Mr. Gould's answer, because Farnum was then in Boston.

SUTRO WILL CASE
IS NOW NEAR END

Supreme Court Is Expected to Knock Out Peculiar Trust Clause

SAN FRANCISCO, June 9.—It now seems almost certain that the long disputed Adolph Sutro will contest will be decided by the Supreme Court during the coming week, and it is further claimed that the trust clause is to be knocked out as it was in the famous Fair will contest, "on the ground of public policy."

Adolph Sutro drew his will in 1882, when he was very rich and right on top of his Sutro tunnel triumph. It was a peculiar will, leaving his property in a peculiar way. Six trustees were named to handle it for ten years. Then they were to turn it over to a board, and the board was to arrange a series of contests in London, New York and San Francisco out of which the first prize was to be awarded to the person offering the best scheme of disposing of all the Sutro holdings after the last Sutro child was dead.

Divorcee Will Go Without Minister's Blessing.

Divorcees who are remarried will have to go without the minister's blessing hereafter in Sacramento. This was agreed upon at a meeting of the local ministers' union.

Marriages of divorcees will be performed, as in the past, but God's blessing upon the couple will not be given unless the ground for the divorce was infidelity.

The spread of the divorce evil was discussed at length by the ministers.

Rev. Mr. George of the First Episcopal Church, spokesman of the Northern California district, asked that no divorcees be married unless infidelity was the ground of the action. He declared that judges on the Superior bench have said all divorcees in California are fraudulent where emptiness is given as the ground for the separation. The United States leads the world in divorces, with one divorce every twelve marriages.

Fred Carley is known as the coach of the play and opera, which has been produced in this city since the turn of the century of high school students. His last performance was the opera "Pinafore" given at the Adelphi Hall. The members of the theatrical troupe have been seen in amateur and professional productions in the bay cities and their dramatic ability has been recognized by large audiences.

Mike Coyle has studied abroad and his brother, Johnnie Coyle, has appeared in comedy roles on the professional stage.

The operatic troubadours are anticipating a pleasant summer visit in the various summer resorts. They will give the second act of "The Chinese of Monterey," a scene from the "Madame," and Fred Carley will enact the death scene from "Fra Diavolo."

Carley's ability as a coach is evidenced by the successful plays he has directed in this city. He has traveled extensively throughout the United States and Europe and made a thorough study of the theater art and its interpreters.

Specialties will be given by the talented Alamedans between scenes. An advance agent will precede them to advertise their appearance. They will remain only one or two days in each watering place.

TROUBADOURS TO TAKE IN RESORTS

Amateur Thespians Will Make Tour of All Watering Places

ALAMEDA, June 9.—A company of Alamedans composed of Fred Carley, Miss Edna Matman, Miss Marion Cory, Henry Kasebaum, and Johnnie Coyle are planning a unique summer outing of several months, during which time they will visit the different watering resorts in Lake county, Lake Tahoe, the Santa Cruz mountains, Del Monte, and a number of other summer resorts, where they will present scenes from famous operas.

TO FIGHT TO HAVE WATER RATE CORNERED

BIRMINGHAM, June 9.—An array of local legal talent will line up before the board of supervisors next Monday morning to do battle against the People's Water company in an effort to secure reduced rates and the dismissal of certain alleged arbitrary restrictions. Representing the people of the affected districts will be Attorneys T. C. Tillman, T. S. Gray, E. Huffaker and R. J. Silve, and they will be armed with data with which they will seek to prove that the rates as charged by the water company are excessive.

Behind the movement for lower rates are the Highland Improvement Club and the Grand Avenue and Hillside Improvement Club, and they have the co-operation of the various clubs and associations along the line of the San Leandro road.

Judge Lawlor in His Variety.

Judge Lawlor stopped the Calhoun trial a space yesterday to deliver a panegyric on Francis J. Heney and administer a reproof to the defendant's attorneys for their failure to show proper consideration for Mr. Heney. It is amazing that Rudolph Spreckels and William J. Burns were not included in the eulogy. Then "Big Jim" Gallagher was called to testify that he did not blow up his own house, his testimony being offered as a proof that Patrick Calhoun has conspired with his attorneys and employees to defeat the ends of justice. In his playful way Heney said that John J. Barrett, one of the attorneys for the defense, had held an appointment under the crookedest mayor San Francisco ever had. Judge Lawlor considered it positively indecent on Mr. Barrett's part to resent the remark. For a time Mr. Barrett was a Fire Commissioner while Schmitz was mayor, but neither he, personally, nor the Fire Department was involved in any scandal during his term of office. Moreover, District Attorney Langdon was elected on the ticket with Schmitz, and supported Schmitz for re-election the last time he ran; and today a number of the appointees of Schmitz are holding important offices in the city government by the grace of Mayor Taylor and the graft prosecution.

Mr. Barrett was once Assistant District Attorney, but, unlike Mr. Heney, he never took money from private parties as a stimulant to his official activities, nor was he ever accused of tampering with a jury or shooting a man down in cold blood.

But comparisons are odious. Mr. Barrett's service as Fire Commissioner is not related in any way to the Calhoun case, and Mr. Heney's allusion to it, aside from the gross insult conveyed by his language, was intended to prejudge him and his client in the eyes of the jury. It is Mr. Heney's confirmed habit to lug irrelevant and derogatory statements reflecting on defendant's counsel, and then call upon the court to protect him from the retaliation and chastisement he provokes and invites. Nor is Judge Lawlor wanting on such occasions. He invariably responds with reprobs to defendant's attorneys delivered in a tone indicating that they are a parcel of scoundrels who ought to be sent to prison, but whom he is compelled to tolerate after a fashion. His deliverance yesterday went to the verge of charging the defendant at bar with having caused Heney to be shot by Haas. A more flagrant example of judicial partisanship cannot be found in the annals of American jurisprudence.

Oakland Harbor Improvements

Several weeks ago the Chamber of Commerce addressed a letter to Lieutenant Colonel Biddle, United States Army Engineer, in charge of river and harbor works on the Pacific Coast, requesting him to recommend to the War Department the dredging of Oakland harbor from the entrance up to the head of Brooklyn basin to a uniform depth of thirty feet. The request embraced three propositions. The first provided for the dredging of the channel to the depth named for its full width of eight hundred feet from ship channel in the bay to the line of East Tenth street. The second proposition provided for the dredging of Brooklyn basin from East Tenth street to the entrance to the tidal canal to the same depth; and the third, widening the channel at certain points to facilitate the turning of vessels in order to avoid towing them astern when departing from the harbor.

In a letter, which has just been received by the Chamber from Colonel Biddle and in which he requests a conference, he sets forth that the total cost of these improvements, if carried out, will amount to \$5,050,000, the first proposition being estimated to cost \$1,750,000; the second \$2,300,000 and the third \$1,000,000.

Engineer Biddle notes in his letter that the channel is now twenty-five feet in depth from the harbor entrance up to Fallon street; that most of the vessels entering San Francisco bay draw less than twenty-five feet of water, and that those controlling many of the wharves now in use have not made them available to utilize the present depth of the channel.

It will be up to the Chamber of Commerce to convince the army engineer that the expenditure is or will be needed for the benefit of commerce. This it ought to be able to do when proper consideration is given to the fact that the federal government is rushing the completion of the Panama canal, that within the next five years that waterway will be open to commerce; that the area for docking on the western shore of the bay is limited, and that the only accommodation for the increased commerce which the canal will divert this way must be provided on this side of the bay, namely, in Oakland harbor. In the light of the great importance of these prospective conditions, the cost of the proposed improvements cuts no figure beyond the result which it will accomplish. These harbor improvements should be completed when the Panama canal is opened, and the date of that event is so near at hand that no time should be lost in carrying them out. This fact has become an urgent necessity.

Yesterday the San Francisco Bulletin printed in the form of a New York dispatch an alleged interview with John D. Spreckels eulogizing Rudolph Spreckels and the graft prosecution. The Call, which is owned by John D. Spreckels, did not print the alleged interview. Why? Because it was a fake. The bogus interview was imposed upon the Associated Press in New York by some trusty partisan of Rudolph Spreckels, probably a Burns stipendiary, and it was sent out to all the papers on the Pacific Coast yesterday morning. Before noon, however, the Associated Press discovered that the interview was a fake and sent out a bulletin to all subscribers stating that the interview was incorrect and requesting that it be killed. With this notice staring its editors in the face the Bulletin printed the false dispatch as authentic. In doing so it violated its contractual obligations with the Associated Press to impose upon its readers a story they had been officially notified was false. The proceeding is characteristic of the Bulletin, which is today the most recklessly mendacious sheet in the Pacific Coast, and is keeping with the methods which have entirely discredited the operations of Spreckels, Burns, Heney & Co.

Carnival Comparisons.

Today and the remainder of the week San Mateo is holding a rose carnival. Coming so closely after the San Leandro cherry carnival, it affords an opportunity to compare the resources of the soil on the opposite shores of the bay. San Mateo's carnival is simply a floral display, such as could be duplicated by any of the cities and towns in Alameda county any month in the year, for their floral wealth is not in any sense inferior to that of San Mateo or any other community located on the west side peninsula.

The great value of the San Leandro cherry carnival was its demonstration of a productive horticultural industry—one in which Alameda county outranks every other county in the state, and yet the raising of cherries is only one of the many profitable industries in soil products for which Alameda county is famous and which make its people prosperous. If the people of San Leandro had chosen, they could have devoted the carnival to a display of any one of a dozen products for which its orchards, farms and truck gardens are famous and which are a source of unfailing wealth to its people. In selecting a cherry display for its carnival, its promoters appealed to the taste as well as to the eye of the thousands of visitors which were attracted within its gates, by the novel festival, for there is no handsomer or more luscious fruit among the early products of the season than the cherry. And yet from now on until the close of the year Alameda county will witness the ripening and harvesting of a succession of fruit crops of great value, any one of which would furnish material for a special carnival, while the homes of its people are embowered in such flowers as now constitute the sole dependence of San Mateo and other west side cities for a carnival display.

Reorganizing Departments.

The administration has wisely decided to reorganize the Fire and Police Departments and establish them on a broader plane than they have hitherto occupied. As at present organized, these departments are based on conditions which existed twenty years ago, when Oakland was virtually in the village state with a population of approximately no more than forty thousand, its jurisdiction extending over a small area compared with what it is now. It has today a population of 235,000 and is the trading center of a population of at least one half million. It is thus placed in the front rank of the leading cities of the United States. Regulations for village conditions are, therefore, entirely out of place as they are out of date. Oakland has far outgrown these and it must, therefore, readjust its administrative departments and adapt them to conditions as they are.

The area of municipal jurisdiction, care and responsibility is vastly greater today than it was twenty years ago. Oakland is, in fact, twenty-five years ahead of what at that time it was expected it might be. The most sanguine citizen in 1889 dared not surmise that Oakland would, in 1909, be a city with a population closely approaching the quarter million mark and, with its immediate suburbs, housing a population of at least 400,000. But such is the fact today.

It stands to reason, therefore, that the provisions made when it had a population less than one-fifth what it has today are no longer adequate. The responsibilities of its Fire and Police Departments are immensely greater today than they were then. The territory to be patrolled by the police and protected by the fire department has more than doubled and the inhabited area of the enlarged territory has become comparatively congested. Reorganization of these departments and re-adjustment of salaries has there become imperative. What we have a right to congratulate ourselves on is the fact that, while we have practically an equal population to San Francisco to take care of on this side of the bay, it is located in a way that, in the matter of police and fire protection, it can be done on a vastly more economical basis.

Governor Gillett did exactly right in ordering Adjutant-General Lauck to remove his headquarters from the house of Superintendent Queale of the McCloud Lumber Company. General Lauck is a capable and high-minded officer, and doubtless was guiltless of any intentional impropriety; nevertheless it was indiscreet to take up his quarters in the house of Superintendent Queale. It gave an air of partisanship to his mission that should have been avoided. He was there with the troops to keep the peace and protect life and property, not to take sides in the dispute between the lumber company and its striking employees. By accepting the hospitality of the company's manager he unfortunately assumed the attitude of favoring that side. This the Governor was quick to perceive and remedy. It is no business of public officials to interfere in labor disputes further than to enforce the law and suppress violence. It is a part of their duty to maintain an attitude of strict impartiality in all such matters, for to do otherwise is to bring the arm of the law in contempt and give a color of justification to forcible resistance to constituted authority. Constituted authority has its highest claim to respect and obedience when it avoids all semblance of favoritism and partisanship.

There is no limit to the ambitions of Los Angeles boomers. The latest is a proposition to consolidate the cities of Los Angeles, Wilmington and San Pedro and to expend \$10,000,000 for the construction of municipal docks, wharves, piers and warehouses at San Pedro and Wilmington. The plan has been recommended by a commission of fifteen representative business men appointed by the city council and the latter adopted the recommendation unanimously. The municipal government of Los Angeles is evidently not at all timid about contracting another big addition to its already enormous bonded indebtedness and no public enterprise, however huge may be its proportions, seems to appall its people in the least. But they have acquired the borrowing habit so strong that in the contraction of bonded indebtedness they are fast reaching a point where it will be a question of "make or break" with them.

Tariff Talk

A SOUTHERN VIEW.

Intelligent and thoughtful Democrats of the South have understood for years that "a tariff for revenue to meet the expenses of the government economically administered" and to which the Democratic party stands committed, calls for a certain degree of protection to the raw material or manufactured products upon which the tariff is levied and they would be little less than foolish to command a "revenue tariff" levied mainly upon the products of the North, East and West, which would afford protection to those sections, while the raw material and products of the South were forced into competition with the raw material and products of Canada and Europe that come in free of duty.—Nashville Banner.

THE INCOME TAX.

It would be difficult to frame a constitutional income tax, and there would be the further objection that the government would be encroaching upon the powers already exercised, in part, by some of the states. But if Senators are bound to make another trial of the income tax, there is no reason why they should insist on making it delay indefinitely a settlement of the tariff fight and thus retard the revival of business—Buffalo Express.

BELATED DOCTRINE.

The time for party leaders to express themselves about a platform is when their views can bear some fruit, not long after the harvest is gathered. The Democratic party is failing apart for lack of leadership which can dominate, lay down doctrine and whip scattered elements together again under a common standard. Leadership which discovers doctrine a year too late is of no use to anybody.—Richmond Times-Dispatch.

HOW?

Democratic talk about a reduction of the tariff becomes ridiculous when majority of the Democratic Senators vote for duties on free raw materials and refuse to accept the Denver platform. How can Governor Johnson go on urging that his party would reduce the tariff, if, in power, when Senator Bailey and his associates flatly refuse so to vote on the very raw materials the Denver National Democratic platform demanded should be free?—Philadelphia Press.

QUESTION OF REVENUE.

By December we should know by experience what sort of revenue producer the new law is and whether more money is necessary. The country has expressed no desire for an income tax in itself. In many quarters there is strong opposition to the proposition. But the country wants the government generously supported; and if an income tax, or an inheritance tax, or some other such tax should be necessary as an addition to the revenue derived from customs for the government's support, why, it should be levied, and Congress, presumably, will be defeated, and from that time until 1861, when he was again a candidate for Governor, he took no part in politics. In 1863 he entered the Cabinet of President Cleveland as Secretary of Agriculture, remaining in office until 1867. He died in 1902. Through Mr. Morton's efforts April 10, 1872, was observed by Nebraska as Arbor Day—the first in the country.

Wonderful Feats in Musical Composition

One of the most remarkable pieces of orchestration ever written, the overture to "Otello," was scored by Rossini in only twenty-four hours.

Though at 1 o'clock in the morning not a note of the overture to "Don Giovanni" had been written, yet Mozart finished it before he sat down to breakfast at the usual hour. During the long hours consumed by this task the musician's wife kept him awake by reading fairy stories to him.

In the early days of his career Sir Arthur Sullivan scored the music for a solo dance in a comic opera at the Savoy Theater in London so rapidly that it was actually in rehearsal within a quarter of an hour after he had set down the first note.

One of the fastest composers that ever lived was Trotter, the writer of songs. Some of this composer's feats verge on the marvelous. It is claimed, for example, that he actually wrote the music of "In Old Madrid" and had dropped it into the letter box within eight minutes of the time he had taken up his pen. This would be remarkable merely as showing his dexterity and agility, to say nothing of the labor of the composition itself.

One of Schubert's friends tells a story indicating that composer's rapidity of workmanship. He had left Schubert absorbed in Goethe's ballad, "The Erl King." On his return, in a very few minutes, he found the musician swiftly putting on paper the notes inspired by the poem; and within an hour there had been composed that great song the world had admired ever since.

Another composer who accomplished extraordinary results in rapid work was Mendelssohn, who thought nothing of dashing off an overture in the course of a day.

THE BLUEBIRD

When Nature made the bluebird she wished to propitiate both the sky and the earth, so she gave him the color of one on his back and the hue of the other on his breast, and ordained that his appearance in spring should denote that the strife and war between these two elements was at an end. He is the peace harbinger; to him the celestial and the terrestrial strike hands, and are fast friends. He means the furrow and he means the warmth; he means all the soft waving influences of the spring on the one hand, and the retreating footsteps of winter on the other. After you have seen the bluebird you will see no more cold, no more snow, no more winter. He brings soft skies and the ruddy brown of the fields. It is sure to be a bright March morning when you first hear his note; and it is as if the milder influences up above had found a voice and let a word full upon the ear, so tender is it and so prophetic a hope tinged with a regret.—John Burroughs.

Topics, Timely and Interesting

When the new United States Senator from Illinois, William Lorimer, selects a house in the capital befitting his new dignity it will have to be a good big one if he wants to keep his family under one roof. The Senator-elect has a brood that would delight the heart of Mr. Roosevelt—eight children ranging in age from a baby just beginning to toddle to a debutante of eighteen.

Orville Wright, since his accident at Fort Myer, has not made any flights; but he is to resume the carrying out of the very difficult government contract next month. This involves a ten-mile cross-country flight across a deep valley, which is something the like of which has never been accomplished even by Wilbur Wright during all the 3000 miles he has flown abroad, although he has at times risen more than 350 feet in height across over smooth ground. In cross-country flying, however, both Farman and Blériot far had the records.

Under the heading "Juvenile Artists," the "Welt Spiegel" publishes the pictures of a little curly headed girl seated at a piano, and a boy before an easel at work on a picture. The former is Fila Osorio, the three-year-old daughter of a Spanish physician. "The little miss is like her brother, a born pianist," says the writer. "She plays with wonderful skill compositions of Haydn, Mendelssohn and Mozart, without any knowledge of notes. The boy Maurice Lavalard, in eight years her senior. He has done some remarkably fine work as a painter, which has recently been recognized at the Paris salon, where one of his interiors is now on exhibition."

In the phonograph archives of the Vienna Academy of Sciences a collection of music and speech of many races and tribes in distant lands is gradually being formed. The most recent additions have been brought from Natal, and include

selections of speech, song and music from Zulus, Nadi, Swazi, Matabele, Basuto, and other races. There are war songs of the Basutos in their fighting with the Basters and the English. Every tribe and every chief has special songs. There are, besides, many love songs and dancing songs. Some of the latter have been composed by Christian natives, and plainly show the influence of modern music. The academy has sent special expeditions to remote parts of Africa and South America to gather records.

Dr. Wilfred T. Grenfell, the Labrador medical missionary, in an article written for the Century, relates that to the Eskimo mind everything animate or inanimate possesses a soul. In the graves they invariably place every cherished possession, that their spirits might serve the departed spirit in the same capacities in the life to come. There is little room for burial beneath the scanty earth in Labrador, even if the frost would permit it. So the grave consists of upright stones, with long, flat ones laid across. These not only serve to keep the wolves from the body, but wide chinks also afford the spirits free passage in and out.

The decision of the presiding judge of the Vienna Children's Court in the "Twelve Cigarette Case" has, according to the "Wiener Tagblatt," created much comment. A sixteen-year-old servant girl took from a dresser drawer in her mistress' boudoir a box containing twelve cigarettes. Regretting the pilfering, she hastened back to the room and threw the little box on her mistress' bed, where it was found, and no complaint was made. Some weeks later, however, the girl was discharged for a trifling cause and the cigarette incident came to the knowledge of the police. The girl was arraigned, and, although she insisted that she never smoked and had no friends for whom she might have taken the cigarettes, that the act was prompted by a

sudden impulse and immediately regretted, she was convicted and sentenced to twenty-four hours confinement in prison. Because the young girl has forfeited her standing and it will be difficult for her to gain employment much induction is felt over the punishment. Merrill E. Gates, secretary of the board of Indian commissioners, was describing in Washington the splendid work that his board is doing to wipe out the tuberculosis scourge which at one time threatened to make the American Indian extinct. "But the Indian," said Mr. Gates, "needs to be educated in sanitation. He is shockingly ignorant there. In fact, he is as ignorant as an old farmer I used to know in Warsaw. A friend dropped in on this old farmer as he was frying a bit of bacon. 'Grand bacon,' said the friend, sniffling affably, 'Grand bacon!' Well, I guess it is grand bacon," said the old man, turning the slices in the pan. 'And it's nice of you to murder stuff, neither. That pig died a natural death.'"

Franz Tewel, who recently celebrated the fiftieth anniversary of his entrance on the stage, has published his memoirs, in which he says that he appeared 878 times in the thousand parts of which he has kept a record. In that time, in his capacity as an actor, he was "thrown from the stage" 712 times, married 2,619 times, was Kaiser Joseph 9 times, was king once, prince 46 times, duke 235 times, baron 482 times and banker 717 times. "I had more wives on the stage than all the sultans in the world combined, and as to children 42,000. I died on the stage only thirty-nine times, and these catastrophes occurred in my young days, when I committed the misdeeds alluded to me in 'Don Carlos' and 'Kahale and Liebe'." "Of his one experience as 'King' Tewel says: "It was in Pressburg in one of Birch-Pfeifer's tragedies, in one of the scenes my queen's veil became entangled in a piece of furniture, and I advanced to assist her in loosening it, when from the wings I heard the bear's voice of the stage manager: 'Here, you! Don't you know your queen's blind? I dropped the lace, but from that moment on the play ceased to be a tragedy."

Snapshots of Humorists

Mrs. Peck (contemptuously)—What are you, anyhow, a man or a mouse?

Mr. Peck (bitterly)—A man, m'dear; if I ever told a mouse I'd have you on the table yelling for deer life right now.

The Boss—I'd like to give you employ, young man, but there is no work to do.

The Applicant—That's just the sort of job I'd like, sir, if the salary were satisfactory.—Cleveland Leader.

Mabel (aged five)—Mamma, you told Mrs. Smif dess spoons were handed down to us by grandma.

Mother—Yes, dear, by grandma, who is up in heaven.

Mabel—Did she forget and took 'em with her?—Boston Transcript.

You know, Miss Blank," said the proprietor of a railroad station restaurant, "there is a great deal in having your sandwiches look attractive."

"Yes, sir, I know it," replied the girl. "I have done everything I could. I have dusted those sandwiches every morning for the last ten days!"—Harper's Weekly.

How would you illustrate the superiority of mind over matter?"

"By personal experience," answered the student. "I set my alarm clock for 5:30 o'clock in the morning, but I do not allow it to exert any influence over my breakfast hour."—Washington Star.

Anty Drudge Tells How to Economize on Coal.

Mrs. Thrifty—“My husband is in the coal business and it doesn’t cost anything for fuel to boil the clothes.”

Anty Drudge—“Your husband doesn’t get his coal for nothing, does he? Besides it costs just half the wear of your clothes when you boil them, as they wear out just twice as fast. Use Fels-Naptha soap in cool or lukewarm water if you want to save time, bother and your husband’s coal.”

John D. Rockefeller says “it is not what we earn but what we save that makes wealth.”

In washing clothes with Fels-Naptha in cool or lukewarm water, either in summer or winter, you save:

Fuel—No necessity for hot fire or boiling water.

Clothes—Your clothes last twice as long when washed with Fels-Naptha, because they are not weakened by boiling, nor worn out by hard rubbing.

Doctor’s Bills—You don’t risk your health by bending over steaming suds or a hot fire and then going into the cool outer air.

Time—The Fels-Naptha way of washing takes less than half as long as the old washboiler way.

Labor—Fels-Naptha takes three-fourths the work and all the drudgery out of washday.

If these savings are worth while to you, follow directions for using Fels-Naptha printed on the red and green wrapper.

JUDGE NORTON ACCEPTS ELLIOTT’S EXPLANATION

STOCKTON, June 9.—Judge Norton yesterday accepted as satisfactory the explanation of Secretary Stewart P. Elliott of the Navigation Company that he did not show to L. Pleakner, a stockholder, the books of the concern following a court order, because he believed that the appeal from the order stayed proceedings.

The order to produce the books in court was vacated, but the original order to show the books to the stockholder remained in effect.

He is a married man about 30 years of age and had been at work for the company for four or five years.

SAN JOSE, June 9.—A. F. Torrey, a night switch engineer at the Southern Pacific broad gauge yards in this city, residing at 430 North Fourth street, was struck by an engine yesterday just as he was leaving the round house and both legs were so wrangled that they were amputated as soon as he could be conveyed to a hospital. His recovery is doubtful.

TILDEN ESTATE FIGHT ENDED

Clarence Geldert Pays \$25,000 and Charges Against Him Dropped

SAN JOSE, June 9.—It will never be known whether or not Beverly L. Tilden, friend of King Edward, founder of operatic troupe and ardent worshiper of Sybil Sanderson, was allowed to drink himself to death at the home of his friend, Clarence Geldert, at Alum Rock Park, near this city. Yesterday the suit for \$100,000 and sensational charges that Geldert took advantage of Tilden’s love for liquor and influenced him in making his will were dismissed in the Superior Court and the heirs of Tilden reached an agreement with Geldert, compromising with him for \$25,000.

Tilden left New York several years ago, ostensibly for a tour of the world. He took with him as his companion Geldert, a young man then playing small parts in the theater where Tilden met and made friends with Mme. Nordica and Sybil Sanderson. The purpose of the trip around the world was to cure Tilden of his desire for drink.

Stops at San Jose

The trip came to an abrupt end in San Jose. Tilden took a fancy to the country, and purchased a beautiful home in the foothills. After a short stay here he wrote home for his stocks and bonds and secured nearly \$100,000. Gold and silver were added. All his money was gone when he returned to New York.

A conference between the attorneys for the heirs and Geldert ended in the agreement of Geldert to pay \$25,000 and have the charges dropped.

The money turned over by Geldert will be divided between William C. Tilden, nephew, who is stage director for E. S. Southern, and a brother, Marinadee Tilden, a wealthy New Yorker, now touring Italy.

HANBURY WANTS TO SELL ISLAND

But It’s David’s Brother in London and Legal Contest Is Likely

SAN FRANCISCO, June 9.—The filing in Napa of a power of attorney given by John McKenzie Hanbury, a wealthy brewer of London, to T. E. K. Curran, an attorney, empowering the latter to sell Island No. 2 in the Sacramento river, is thought to indicate the possibility of a contest over that piece of property.

The island, valued at about \$100,000, already has been deeded by David Hanbury, a capitalist of this city and a brother of the London brewer, to his wife, who sued for a divorce some time ago, but withdrew it after the island had been given to her.

On January 28, Hanbury forged the name of Mrs. Emma Rubenstein to a check for \$158. He entered a plea of guilty to the charge preferred against him and at the request of Mrs. Rubenstein, Judge Brown released him on probation.

Shortly afterward he forged the name of Miss Edwina Rubenstein, a daughter of Mrs. Rubenstein, and obtained from him access to a safe deposit vault, from which he stole seven diamond rings belonging to the Rubensteins and sold them for \$100.

In revoking Plagg’s probation and sending him to State’s prison, Judge Brown said that the culprit appeared to be refined and able to appreciate right and wrong, but that he had done the wrong, seemed to be the idea that he could do wrong and then wriggle out of its consequences and thus defeat the law.

PROBATION IS REVOKED; PLAGG GETS THREE YEARS

Having revoked his probation, Superior Judge Brown yesterday sentenced Fred Plagg to three years in the penitentiary at Folsom. Within a month after his return on probation, at the intercession of persons whom he had injured by his treachery, Plagg repaid the debt he owed them by robbing them again.

PROFESSOR CRUEL WIFE WINS SUIT

Mrs. Anna Hawes Thompson Granted Divorce in Chicago Courts

CHICAGO, June 9.—Mrs. Anna Hawes Thompson was yesterday granted a divorce from her husband, James W. Thompson, associate professor of history in the University of Chicago. Extreme and repeated acts of cruelty were the charges upon which the decree was granted.

A decree was entered by Judge Honore after the evidence had been given by the plaintiff and two witnesses, a brother of the defendant and by a maid.

News of the divorce caused a commotion in the University of Chicago circles, where Thompson and his wife are prominent. The couple have been married twelve years and have one child, a boy, William, 10 years old. He was given into the custody of the mother.

Mrs. Thompson testified that she had been repeatedly subjected to physical violence at the hands of her husband and she recited specific instances of cruelty. Similar testimony was given by Hannah Christensen, the maid. Wayne Thompson, the brother of the professor, also testified to acts of cruelty on the part of the defendant.

X-RAY GIVEN AS CURE FOR LIARS

At Least it Ought to Prevent One Woman From Repeating Falsehood

CINCINNATI, June 9.—“Doctor, do you ever do anything for charly?” I am an out of your waist and pay me \$5 trouble. Won’t you please examine my heart with the X-rays free of cost?”

This plea was made by a poorly dressed woman to Dr. George Hermann yesterday.

“Yes, I will examine you,” said the doctor.

“But, doctor, I do not want to take off my waist—you can make the examination without taking that off, can’t you?” asked the woman.

Makes Discovery

“It would be better to take it off, but if you insist, leave it on,” was the reply.

As the X-ray machine began to crackle, the physician gazed at her heart. Happening to look a bit lower he was surprised to discover two twenty-dollar gold pieces hidden in a chamois bag under the woman’s garments.

“How is my heart, doctor?”

Engagements, Weddings, Dinners and Other Happenings in the Smart Set

The wedding of Miss Robertina A. Mills and Thomas Williams will be solemnized tomorrow evening at 8 o'clock at the home of the bride's parents, 1450 Twenty-third avenue, East Oakland. Miss Mills is a girl of sweet personality and has many friends who are extending their congratulations for this happy occasion. The bride-elect has recently returned from the southern part of the State, where she has been for the past nine months. The news of the engagement and approaching marriage came as a great surprise to her friends in the Bay region.

Rev. Father P. C. Yerke is to be the officiating clergyman.

Mr. Williams is a man of affairs in Alameda, where he is prominently identified with real estate interests. He has a beautiful home in readiness for his bride, which will be occupied upon the return from the honeymoon journey, which will include a visit to relatives in Illinois.

The ceremony will be solemnized in the presence of the immediate relatives and a few close friends.

There will be no bridal attendants and the ceremony is to be followed by a wedding supper. Green and white will be used for the decorations of the evening. The bride is to wear a becoming traveling gown or gray silk with long coat and hat to match.

CHARMING OUTING.

Miss Su Pavett introduced a group of Eastern friends in a most charming manner last week. The party first enjoyed a delicious prepared luncheon at the Hotel St. Mark, after which they started in Miss Pavett's car to take out for a trip through the Santa Cruz Mountains. Leaving in the afternoon they arrived in Santa Cruz in time for dinner. During the day they visited the various points of interest in and around San Jose, after which they returned to Oakland. The members of the party who are visiting the coast for a short time were delighted with the picturesque beauty of the Santa Cruz Mountain, especially the trip to the summit. Miss Pavett is one of the finest hosts and is in the way of a charm with such people.

Guests were Dr. G. C. Moore, Mr. and Mrs. M. L. McLean, Mr. and Mrs. N. C. Moore.

LUNCHEON HOSTESS.

Miss Marcelline Deerman was a luncheon hostess of yesterday, entertaining a congenial coterie of friends in a most delightful manner. The dining-room was particularly attractive with its decorations of scarlet geraniums. Dainty hand-painted cards designated the place of each guest. In the living room the decorations were of white and red sweet peas combined with delicate ferns. The guests of the day are to enjoy their sumptuous dinner at Monte Rio, where they have engaged a cottage.

After the enjoyment of the luncheon the guests discussed plans for the proposed outing. The guests included:

Miss Mary Knapp, Miss Marcelline Deerman, Miss Anna Starich, Miss Stella Starich, Miss Ethel, Miss Bernadette, Miss Wohlert, Miss Nellie Peters, Miss Dawn Renfro, Mrs. Ethel Atchison.

HILL CLUB CLOSES.

The last meeting of the Hill Club was held on Monday at the home of Mrs. C. W. Gause. The hostess was assisted in her duties by Mrs. M. J. Willson and Mrs. H. Farnan.

There was an unusually large attendance, over fifty members being present.

After a piano solo, "dy," by little Jeannette Gause, Mrs. C. L. Hooper read one of the original stories which was keenly enjoyed. Then followed a travel talk on "Greece," by Miss Henrietta Brewer, which was intensely interesting and instructive. She displayed many beautiful costumes, also curios and pictures of places of interest. Her talk was interspersed with Greek music, several of the songs being beautifully rendered by Mrs. A. E. Nash, accompanied by Miss G. C. Foy.

A Greek dance, very quaint, was played by the Misses Crafts and received much applause. The national Greek anthem was given on the violin by Miss Donaldson, accompanied by Jeannette Gause.

The Greek colors, dark blue and white, were carried out in flowers and decorations.

The refreshments also conformed to the Greek idea.

A toast was given to Mrs. D. A. Spencer, a former president of the club.

After the singing of several old familiar songs the meeting closed a most enjoyable year. The meetings will be resumed Monday, January 3, 1910, the first gathering to be held at the residence of Mrs. E. N. Englehardt, 647 Edwards street.

Woman M. D. Objects to Being Called Doctorress

QUINCY, III.—If a doctor be a doctor though she be a doctorress, doctoring doctor in a—goodness, what a mess!

Here's a doctor says she's a doctor, though she's a doctorress.

Tis a doctor needn't doct'r-in—es the reader may have seen.

For ten years Miss Dr. Ethel H. Richardson has been letting for her right to be called the doctor instead of a female lady doctor, which title she declares some boorish men have conferred upon her. Miss Dr. Richardson is a plain woman who practised medicine and won the degree of M. D. ten years ago, but had to wait a year for her license because she was only twenty when she was graduated.

"Look out, Doc, or you'll tell your nose," cried the toasting master.

"A woman M. D.," continued Miss Richardson, "is simply a doctor—a plain doctor."

FRAUD CHARGED IN OBTAINING DIVORCE

Wife of Wm. Guggenheim, Head of Smelter Trust, Brings Action

MADE TO GIVE FALSE TESTIMONY, SHE CLAIMS

Charges Filed by Dunne, Who, When on Bench Rendered Verdict

CHICAGO, June 9.—Charges that a suit for divorce by Grace B. Guggenheim, in 1901, against William Guggenheim, head of the smelter trust, was won through fraud and collusion were made before Judge Honore this afternoon, and were followed by an order that the principals show cause why the decree should not be set aside.

Former Mayor Edward F. Dunne appeared in court with five affidavits, in which the alleged frauds were detailed. The defense was filed before former Mayor Dunne, while he was sitting as judge, and he told Judge Honore that he was convinced that fraud had been practiced on the court.

"This decree was obtained through fraud and conspiracy," Mr. Dunne declared. "At the time both were residents of New York, but the complainant was induced to come to Chicago to begin suit. Ignorant of the statutes of Illinois, she came here in 1901 and registered at one of the hotels, where she remained for a few days. Then she returned to New York and later again visited Chicago. A bill for divorce was then filed and the court, believing he had jurisdiction, heard the testimony and granted the decree. The woman now swears that she was then and has been since a resident of New York."

Conspiracy Charged

What purports to be a detailed history of the relations of the complainant and Guggenheim from the time of their marriage to the present is contained in her affidavit. In this she makes averments that Guggenheim and her supposed attorney, Louis Werner of New York, conspired to practice a fraud on the court.

At the time of the decree the complainant got \$150,000, of which Werner received \$12,500. At the time it is declared by the complainant, it had been represented to her that the defendant was "the weakest and least important member of the Guggenheim family," while in fact he is the ablest of the seven brothers and the chief organizer and business head of the great combination of mining and smelting interests owned and controlled by him and his family. His wealth is now more than \$500,000.

The complainant has been three married and has figured in an equal number of divorce suits. Guggenheim, remarried after the decree was granted by Judge Dunne, the successor to the complainant being Alfred Lillian Steinberg. The complainant's first husband was William C. Herbert, a naval officer, who obtained a decree on the ground of desertion. Guggenheim was the second, marrying the complainant November 30, 1900. Less than four months later the decree of divorce was entered in Chicago. Her next husband was Jules Roger Wahl, who obtained an annulment of the contract in France on the ground that the Chicago decree was invalid.

TEACHING THE REMEDY

"But the real reform will come in the body politic. The moral and spiritual teachers of our country are raising a warning cry. Our women are telling it in the homes, the schools, the pulpits. Soon the divorce problem will settle itself. Marriage will be confirmed with such care that few will find their way to the courts to be dissolved by law.

"The true remedy lies in the moral training of the young and the example of the elders. Girls should be brought up with a sense of wifely duties, the burdens that marriage entails, the dignity of being a household ornament. Boys must be taught to respect the opposite sex, to consider marriage as binding for life, and to wisely plan the future and be sure of being able to provide."

"Unhappy marriages will exist, however, as long as men take after Adam and women after Eve."

HELD FOR INDUCING BOYS TO COMMIT THEFT

M. H. Lane, a contractor of Elmhurst, was arrested yesterday in East Oakland by Constable Allen of Fruitvale, and charged with having induced three boys to steal mechanical fittings from the new power house of the Southern Pacific company in Fruitvale and then purchasing them from the lads.

Four months ago Lane made application for the contract of the power house, but failed to secure it.

When taken to prison he was reticent and sullen, claiming entire ignorance of the matter and stating that it was a scheme of the youths to free themselves. He was booked for grand larceny and placed under \$1,000 bail. The trial will take place June 18.

Vagaries of a Cold

You can never quite measure a cold. It is going to hit you. In the fall and winter it may settle in the bowels, producing severe pain. In the summer it may give you colic with diarrhoea or cause constipation. You may not even know yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the pain or cramp take Perry Davis' Panikiller in water, which is a powerful antiseptic and analgesic. There is but one Panikiller, Perry Davis'. It is now put up in a large size as well as the regular 50c size.

Proposed Plans for Oakland's City Hall, Drawn by Dickey & Reed, Which, if Accepted, Will Give This City the Tallest Building in the State of California. The Proposed Building is 18 Stories in Height and Has a Frontage on Fourteenth Street of 140 Feet. Seven reasons Are Advanced by Dickey & Reed as to Why Oakland Should Have Such a City Hall as They Propose.

18-STORY CITY HALL FOR OAKLAND PLANNED BY LOCAL ARCHITECTS

Designers Give Reasons Why Structure Would Have Advantages Over Usual Low Public Building

In event plans prepared by the local architects, Dickey & Reed, are accepted by the city, Oakland will have the most unique city hall in the world. It will be the tallest building in the State of California and will be a monument that on clear days may be seen as far away as San Jose or Contra Costa. The general scheme of the building is that of a skyscraper off ce building eighteen stories in height with a frontage on Fourteenth street of about 140 feet.

City halls generally cover a great amount of ground area but are never very high. The ai moe of the architects in the present case is to conserve the ground area and at the same time make the various offices easy of access. There will be a suitable number of rapid elevators in the building to take passengers from the ground floor to the top. For instance, the Mayor's office might be at the top of the building, 315 feet above the street. Next the City Auditor and Assessor and so on down the list of offices. The police courts and jails would be the very lowest stories. In fact, the jail would be in the basements of large department stores are.

The proposed office plan of construction has many things to recommend it. Instead of a pedestrian having to walk a block and a half to get to a desired office all that is necessary is to step in the elevator and get off at the floor wanted. In the next place there is not a building like it in the world. Any person getting on Washington street and looking toward the city hall would invariably ask what the building at Fourteenth street was. The reply would be, "It is the city hall."

Architects' Views

Here are the reasons advanced by the architects in favor of their unique architectural creation:

"If the present site is retained it is very desirable to retain the park as a breathing space in the center of the city.

If separate buildings are erected for the City Hall and Hall of Justice, as has been proposed, it will necessitate building the City Hall on the ground now occupied by the park. The result would be that Oakland would lose a beautiful open city square, the two buildings would be crowded in among commercial buildings and could have no proper setting and very little dignity.

"On the first two floors are located the tax assessor and collector, treasurer, license department and police department, with emergency hospital and operating room.

"On the third floor are located the Board of Health, sanitary inspectors, laboratory, etc., leaving considerable space unassigned.

"On the fourth to ninth floors, inclusive, are located the courts, each court room two stories in height with all the necessary accessories including the city attorney's department.

"The tenth and eleventh floor are unassigned and are intended for future expansion.

"The twelfth floor is for the Board of Education.

"The thirteenth floor is for the City Clerk, etc.

"The fourteenth floor, which is a high story, is for the city council, with committee rooms.

"The fifteenth and sixteenth floors are for the Board of Works, Street Department, Building Department, City Electrician, etc.

"The seventeenth floor is for the City Engineer.

"The eighteenth floor is for the Mayor.

Jail in Basement

"In the basement under the building is located the power plant and storage space. The portions of basement (about 50 feet wide) extending out under the broad strobate and sidewalk is to be used for a jail. This space can be beautifully lighted by sidewalk vault lights and perfectly ventilated by sidewalk ventilators and by a powerful fan which would blow the air out through an underground duct to discharge through an ornamental kiosk in the park.

"Four large rapid passenger elevators and a freight elevator (that could be used by the janitor and by the police department to bring witnesses, prisoners, etc., from the first floor and from the basement jail to the court rooms, would easily handle the traffic.

"The main entrance hall and stairway from first to second floor will be treated in a monumental manner, but the remainder of the building will be treated as a practical office building.

"Every inch of the interior is well lighted and ventilated and there is a maximum amount of working floor space.

"The space under the pyramid, classic tile roof will be occupied by tank, overhead work of elevators, etc.

"The estimate cost of the building is one million dollars."

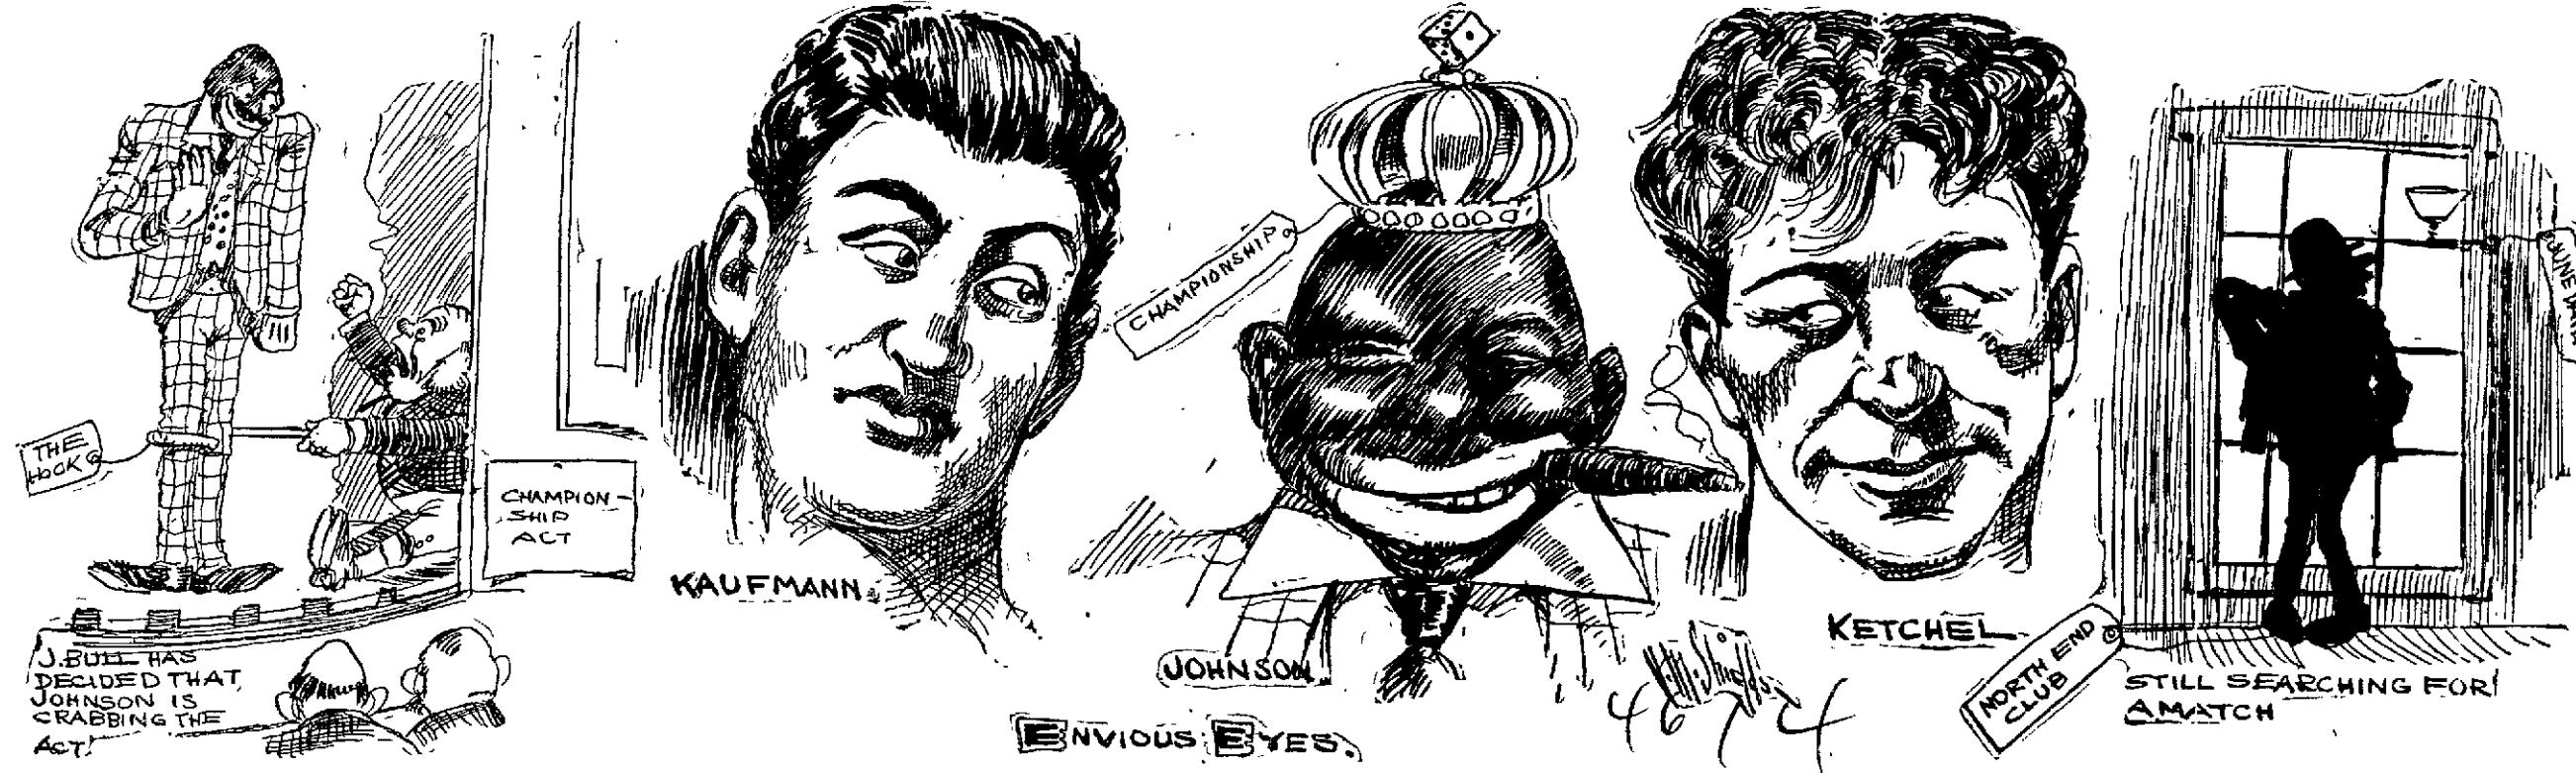

J. Q. RIDEOUT TO BE POSTMASTER

Congressman Knowland Receives Recommendations of Committeemen

WASHINGTON, June 9.—It is reported here that J. Q. Rideout will receive the appointment as postmaster at San Luis Obispo.

Congressman Knowland has received the recommendations of District Attorney Donahue and Lou Crellin of Pleasanton, both of whom are on the congressional committee. They favor the appointment of Rideout.

KNOCK-OUT OF OTTO FRITCH WILL BOOST FRANK PICATO

Put-Out Victory by the Southerner Might Get Him Big Match in San Francisco; Papke Writes From Los Angeles.

By EDDIE SMITH.

Louis Blot received a letter from Billy Papke this morning in which the fighter says that he will leave Venice on the 14th of this month and that as soon as he arrives here he will go into training at Tom Sharkey's training camp at the Seal Rock House at the Ocean Beach. Papke says that he has been living the simple life while in the south and that he has done little but lay about the beaches an do in swimming. "I'm as brown as an Indian and feel better than ever before in my life," says the fighter. This is good news, for if he is to meet Ketchel here on the 5th of July we surely want to see him at his best.

TONIGHT at the Armory Hall the Oakland Wheelmen will stage a series of boxing contests three of which are slated to go six rounds and three to go four rounds. Billy Roche is to act as referee and the management has promised they will see to it that the show is run off with a snap and dash so that the spectators can get to their homes at a reasonable hour.

As the main feature of the evening's sport Frank Picato has been engaged to wallop Otto Fritch into slumberland for the edification of the local fans who have wanted to see Fritch beaten ever since he broke into the game. Picato has a reputation, earned at Los Angeles, that would make him almost a certainty to win if the Dutchman shows no better form than he did the last time out.

Fritch a Poor Trainer

There is little or no excuse for the man showing that Fritch has made the last few times out, for it has been simply a case of lack of condition, a thing brought on by laziness. Judging by his looks at the present time one would imagine he has been training with some degree of earnestness and if this is so the Fighting Dutchman should give us a good line on the new comer's ability, for he will certainly keep him busy.

One of the dreams of all matchmakers is the discovery of new stars in the game, and this has already struck the young men in control of the Wheelmen. Matchmaker Moffit has made his first discovery in Jack McFrayne, who has been matched with Johnnie O'Keefe.

If those who are on the inside with information as to McFrayne's ability can be believed he will trim the O'Keefe boy in a style, but it is understood that O'Keefe has not been ash-eep and that he has ad people looking Melrose over and they report back that he will have on his feet and very much alive at all times.

With only six rounds to go and no hitting in the clinches clause in the articles of agreement it would seem that Ketchel certainly looks to have a very good chance. Should Ketchel do the trick and Jack Johnson failed to accomplish it, he'll boost the stock of the middle-weight sky high and no end of people will become convinced that Ketchel can beat the matchmaker's discovery.

Tony Deakin and Jeff Perry are set for six rounds with Matty O'Neil vs. Jim Foley, Kit Fitter vs. Charles Kent and Jimmie McGrath vs. Joey Sullian. All will make up the preliminaries.

North Enders Slow

McFarland still talking. Packey McFarland is still of the opinion that he will get a chance at Battling Nelson, but from all appearances he is dreaming. But says that he made one concession to the stockyard fighter in the matter of weight and that he was not satisfied and cried about forfeit, and for that reason he can now take a taste of sixteen. It would seem that he will be forced to put on the same old local talent we have seen a bit too often of late.

There are all sorts of popular priced cards that the management can secure, but they have become imbued with the idea that they must handle a high class attraction. They overlooked the fact that the time is very short for the advertising of a big contest, however, and it would be overlooked the chance of being stuck with the big guarantees they will have to offer.

Battling Nelson and Abe Attell were talked of as a big attraction, but the Battler very conservatively put his price at \$7500 for his end, and considering what they would have to pay Attell, the contest looked too big. Attell settled the matter, however, by sending word that he is about to leave for England.

Might Match Frayne

Then the Battler was offered another match with and one he might choose Nelson agreed to the and set his price for such a contest at \$3500 for his end. The club, of course, cannot pay any such sum and make money, so the deal is off. Nelson has given up. No one can blame Nelson, for he is getting Mesmer-Smiths' best as much money elsewhere and he Astland

is still in the dark so far as a match for this month is concerned, and as the time is slipping by very rapidly the managers had better hustle a bit or they will find that they are stuck and will be forced to put on the same old local talent we have seen a bit too often of late.

is still in the dark so far as a match for this month is concerned, and as the time is slipping by very rapidly the managers had better hustle a bit or they will find that they are stuck and will be forced to put on the same old local talent we have seen a bit too often of late.

There are all sorts of popular priced cards that the management can secure, but they have become imbued with the idea that they must handle a high class attraction. They overlooked the fact that the time is very short for the advertising of a big contest, however, and it would be overlooked the chance of being stuck with the big guarantees they will have to offer.

Battling Nelson and Abe Attell were talked of as a big attraction, but the Battler very conservatively put his price at \$7500 for his end, and considering what they would have to pay Attell, the contest looked too big. Attell settled the matter, however, by sending word that he is about to leave for England.

Then the Battler was offered another match with and one he might choose Nelson agreed to the and set his price for such a contest at \$3500 for his end. The club, of course, cannot pay any such sum and make money, so the deal is off. Nelson has given up. Miss Mabel Riegelman Triumphs In Concert in Her Home City

MISS MABEL RIEGELMAN.

With the poise and dignity of a prima donna, Miss Mabel Riegelman made her appearance before an Oakland audience last evening after an absence of four years in Germany.

It is with pleasure that it can be truthfully said that Miss Mabel has fulfilled all the spurious predictions made before her departure for Germany. This talented young singer has every attribute requisite for a successful operatic singer.

Professor Crepaux has had many beautiful voices placed under his instruction and is one of the best professors in vocal instruction on the coast. Winfred Goff, a member of the Savage Opera Company was his pupil, as also was Mrs. Fred Abbey, now Mrs. Blumenberg.

Shared Homage

It was with pardonable pride that he shared the homage paid his talented pupil last evening.

Miss Riegelman, accompanied by her sister, Miss Eddy, will leave on July 25 for Germany, where they together will continue their musical studies.

Miss Riegelman will enter the third year of her contract at the opera house in Stuttgart.

Miss Eddy is a talented pianist and will continue her studies in Germany.

Frederick Maurer was the accompanist of last evening and had many words of praise to give of the young artists whom, he says, has won three-quarters of the battle for the position of a grand opera singer. He says "She is great."

Everyone was pleased and delighted with her work of last evening.

Following the program the young artist had an informal reception on the stage, when she was completely overwhelmed with congratulations. This means everything, for to be accepted and accorded praise in this musical city is an enviable position for any musician.

Miss Riegelman's voice is pure as gold, with the tenor-like fire. She can sing like a "minstrel" Gadski, her voice is so similar to that of the great artiste whose protege she is.

No Easy Task

It is not an easy matter to appear before an audience of such people. Miss Riegelman has "made good" and has won her victory in her home city, that most difficult of all feats.

Everyone was pleased and delighted with her work of last evening.

Praises Her Teacher

To Professor Louis Crepaux, Miss Riegelman attributes much of her success. She received her early musical training from this noted man, who, himself, has had such an interesting career.

Professor Crepaux came to this coast fifteen years ago from Paris, where he had been a member of the Grand Opera for ten years. Professor Crepaux was educated at the Paris Conservatoire, receiving the first prize in the competitive examination for open work which admitted him as a member of the Paris Grand Opera. During his connection with the opera he sang with such noted artists as Patti, Plancon, Delmas and the two De Reszies.

Rose Carron, now the wife of Clemente, the program, was the accompanist of last evening and had many words of praise to give of the young artists whom, he says, has won three-quarters of the battle for the position of a grand opera singer. He says "She is great."

Mrs. Marshall Plays

Mrs. Hazel Knowles Marshall, who contributed two piano numbers, is a pianiste of a most poetical temperament, her numbers being given in a most artistic manner.

The stage resembled a florist's shop with the wealth of tributes which were showered upon the young singer.

Complete Program

The program of last evening was as follows:

Neu Freuden, Neue Schmerzen (from "Fleure") Mozart
Zur Drossel sprach der Flink D'Albert Das Maedchen und der Schmetterling D'Albert

FIND FUGITIVE IN PENITENTIARY

Elmer Fulton, Wanted Here
For Forgery, Is Nevada's
Guest For Year

After a search which has lasted over a year and covered every section of the State Sheriff's Farm, it was located Elmer Fulton wanted here for forgery and uttering fictitious bank checks in the penitentiary at Carson City, Nev., where he had been confined since his conviction in the State.

Fulton was identified as a fugitive from justice by the pris' n officials at Carson City, shortly after he was delivered into their charge, and after inquiry showed that he was Elmer Fulton. It is a letter to this effect that will be exhibited to Oakland at the expiration of his term and placed on trial here.

Fulton is a plasterer by trade and was working here with the permission of the local plasterers union at the time he fled, securing various bank checks. His victims were fully satisfied.

After gathering in a considerable sum of money by getting other plasterers to cast the worthless paper, he obtained a forged title to their leases to Sheriff Barnett and he immediately substituted a descriptive circular. It was believed in the original circular that the fugitive was finally at large.

The Nevada authorities say that Fulton is also wanted in Sacramento for his attempt to run away from prison, where he walked out into Nevada.

MISS C. PARDEE OPERATED UPON

Third Daughter of Dr. and
Mrs. Pardee in East Bay
Sanitarium

Miss Carol Pardee, the third daughter of Dr. and Mrs. George C. Pardee was operated upon this morning at the East Bay Sanitarium for appendicitis. The operation was most successful and the patient was resting comfortably at noon. There is a delightful family of girls in the Pardee home which is one of the most hospitable in the city. The illness of Miss Carol has been the occasion for much sympathy from the many friends of the family who will be pleased to learn of the successful operation with every hope for a speedy recovery.

DEVLIN IS NOT YET APPOINTED

Nomination For U. S. District
Attorney Is Still in
Committee

WASHINGTON, June 9.—The fight of Dr. Perrin, who was convicted of complicity in land frauds in connection with Benson against Robert T. Devlin, the United States District Attorney who secured his conviction, is likely to result in the refusal of the United States Senate to confirm the nomination of Devlin for appointment. The nomination is still hanging in the sub committee of the Senate committee on Judiciary and Devlin will be asked to come on to Washington and appear before the committee to answer questions as to the manner in which the case against Perrin and Benson was conducted.

Take it all together the case is peculiar and is likely to result in the disclosure of a sensational story. It involves not only the prosecution of Perrin and Benson but the professional action of Detective Burns possibly that of Henry and the alleged jobbing of the Perrin case by Burns who is said to have gone before the grand jury and declared that he had just come from Oyster Bay and that the President wanted an indictment brought against Perrin.
